LIQUID-FILLED SEALED
COUNTER TYPE WATER METER

MODELS

DPRF/13
DPRF/20
DPRF/25
DPRF/30

- * Single-jet turbine water meter
- * DPRF model for cold water up to 30 °C
- * Direct-read roller indicator
- * The numbered drums are contained in a sealed capsule filled with a special liquid
- * An anti-fogging system ensures a clear reading in all conditions
- * The DPRF meter can be used with any kind of water even if particularly hard, scaling, turbid or muddy as the counter will remain protected even in water that contains high level of dirt or other contaminants such as iron
- * Indelible wet dial
- * Hydraulic features in line with EEC metrological standards following provision n°. 75/33
